

RURAL ELEGANCE

Hidden within 1,700 acres of protected New York State parkland is a place that is nothing short of magic. Driving along a quiet dirt road, shady woodlands open up to rolling green hills, beautiful lakes and the stunning rural farm that is Glynwood.

All just 60 miles north of Manhattan.

An elegant stone manor house that was once a private family estate is the focal point of your event.

As your guests celebrate under the stars, they indulge in endless views of productive farmland and the soft lowing of cows and sheep dotting the landscape.

A WORLD ONTO ITSELF

Centuries-old apple and pear trees lean toward rolling pastures, and fields where vegetables are grown in field-to-plate proximity.

Your carefully crafted menu works in harmony with the abundance around you. For your rehearsal dinner we suggest our rustic boathouse on Perkins Lake, alight with hundreds of twinkling bulbs; retractable doors open onto idyllic fresh water.

A hidden gem, a world unto itself, Glynwood offers you and your guests 19 simple yet well-appointed rooms for overnight accommodations in order to fully experience the charm and beauty of this place, and dance the night away, worry-free.

SITE FEE: The site can be rented at a total cost of \$12,000. (\$5,000 Donation + \$7,000 Facility Fee for up to 250 guests).

Additional pricing: Complimentary for a rehearsal dinner facility rental for up to 150 guests. \$1,500 for a brunch facility rental for up to 150 guests.

\$1,000 for a 2-hour after party.

We truly take joy in the process of producing food, training young farmers and sharing the region's distinct offerings with our guests, but because we are a working farm, we can only share this unique facility with a limited number of private clients annually. Your event will be unique and beautiful, and it will also convey that you care about the future of farming in the Hudson Valley.
